

EN: Warning! Working at height, rock climbing, mountaineering and related activities are inherently dangerous. It is the responsibility of any person using this equipment to learn and practice the proper use of the equipment before using it. The user must be trained, safe and to foresee and take appropriate action in situations where rescue may be required. Even the correct use of equipment and techniques may result in fatal consequences. Medical conditions can be aggravated by the use of this equipment. The user must accept responsibility for all damages or injury which may result from the use of this equipment. The user must read and understand the instructions and pictograms shown on the common correct and incorrect methods of use; it is impossible to predict them all. There is no substitute for instruction by a trained and competent person. **IMPORTANT!** Please read and understand this information before use, and retain this information for future reference.

General information
 This equipment is designed for use in accordance with the standards conforming to one or more international standards. If in doubt, please contact your supplier or DMM.
 This equipment is designed in accordance with the standards of the Personal Protective Equipment (PPE) relevant to European Union Directive 89/686/EEC. It may be acceptable for use in other applications, please consult your supplier.
 This product is a serviceable condition and operates correctly. This inspection should be recorded on the inspection form supplied. This recommendation is for inspection at least once every 6 months by a trained and competent person.
4. Personal Issue: This product may be issued for personal use, and may be used either separately or as part of a system.
5. History: This product may have a history which should be aware of its history (use, storage, inspection etc.). If this equipment is not for personal use (e.g. used in mountain centres), we strongly recommend a systematic approach to record keeping. This should always be carried out in accordance with the manufacturer's instructions.
6. WARNING: If you are in any doubt about the safe condition of this product, replace it immediately.
7. WARNING: If the product has been used to arrest a fall, a thorough inspection should be carried out by a trained and competent person. Its suitability for continued use. If in doubt it should immediately be withdrawn from use, decommissioned and replaced.
8. Maintenance: This product should be maintained in accordance with the instructions with this product as compiled with it. It is the user's responsibility to ensure that the user understands the correct and safe use of this product.
9. Climatic Conditions: This product is designed for use in normal conditions. It may be suitable for other conditions, please consult your supplier.
10. No responsibility will be accepted by DMM for damage, injury or death caused by the use of this product.
11. No special transportation precautions are necessary; however, avoid all contact with chemical reagents or other corrosive substances. This product should be stored in a cool, dry place.
12. Other obstructions: Check the anticipated destination during loading before use.
13. Anchors: The attachment point of the fall arrest system should be above the position of the user and conform to EN1959:2012 or have a minimum strength of 15kN.
13.2 Positioning of the anchorage point is crucial for safe fall arrest and the length of the connector so that obstructions (such as the ground) may not be contacted.
14. Maintenance and Servicing
 This product must not be marked, modified or repaired by the user unless authorised by DMM.
14.1 Disinfection: disinfect using a disinfectant containing quaternary ammonium compounds reinforced with chlorhexidine (e.g. Svelon) diluted in accordance with the manufacturer's instructions. Do not use solutions recommended for general use using clean water as per (14.2), not exceeding 25 °C then rinse thoroughly as per (14.2).
14.2 Cleaning: Clean this product with a mild detergent, using a soft brush. Do not use a maximum temperature 25°C with mild detergent at appropriate dilution (pH range 5.5 - 8.5), thoroughly rinse and dry naturally in a warm ventilated room away from direct heat. Important: Cleaning is not to be carried out after use.
14.3 Lubrication: Lubricate the mechanism with multi-purpose grease. This should be carried out after cleaning. Lubrication is recommended after every use in a marine environment.
14.4 Storage: Store this product in a cool, dry, dark place in a chemically neutral environment away from excessive heat or heat sources, high humidity, sharp edges, corrosives or other possible contaminants.
15. Lifespan and Obsolescence
15.1 Lifespan: this is the maximum life of the product, subject to detailed conditions, that the manufacturer recommends that the product should be replaced.
15.2 Obsolescence: The manufacturer recommends that the product should be replaced if it is damaged or if it is over 10 years from date of manufacture. Metal Products – no time limit.
Note: This may be as little as one use, or even earlier if damaged (e.g. damaged by fire, or if the product is used in a corrosive environment).
 The following criteria fall arrest, general wear, chemical contamination, loss of strength or wear, frayed and/or bent wires, heat contamination (over normal climatic conditions), stitching, frayed tapes, degradation (over time and/or use), marking (e.g. marking, batch reference, individual serial numbers etc).
 Where such products are permanently attached to other products in a system, please refer to the manufacturer recommendations of the other products.
15.2 Obsolescence: a product may become obsolete before the end of its lifespan. Reasons for this may include changes in applicable standards, with other manufacturers, or the development of new techniques, incompatibility with other products.
16. European Union Type Examination: EU type examination for this product is carried out by Notified Body No. 0120:5-G.S. (UK) Ltd. **World Wide:** EN12801, EN12802, EN12803, EN12804, EN12805, EN12806, EN12807, EN12808, EN12809, EN12810, EN12811, EN12812, EN12813, EN12814, EN12815, EN12816, EN12817, EN12818, EN12819,
